PREFACE

Gender Equality is a global issue, and discussions on women' emancipation and her rights are at the forefront of many worldwide formal and informal campaigns. As the awareness of gender issues increases, women spontaneously take action against women's oppression and exploitation.

Gender awareness allows women to move beyond other conventional gender stereotypes and rigid gender role definitions.

The gender audit was conducted to identify ways to make college campus safer for women. The audit process involved choosing the sites to be audited, selecting the participants, orientation to the participants, preparing the checklist and the walk –about, writing down the findings and sharing the results with the principal of the college for implementation of the recommendations.

Then We say_ _ _ _ _

True gender equality is said to be achieved when both men and women compliment each other and enjoy the same opportunity and rights. In matters of participation merit, ability and aspiration are more important than the gender of the person. We, at Lala Lajpatrai College, follow this policy. Opportunity is provided based on ability. Men and women are treated on par. Yet, we are sensitive to the needs of women considering their unique concerns. We take every step to motivate them, to address their issues and make efforts to resolve the same.
