

ACTION TAKEN REPORT

(Academic year 2021-22)

Based on feedback received from various stakeholders of Lala Lajpatrai College.

Action taken report (Academic year 2020-21) based on feedback received from various stakeholders of Lala Lajpatrai college.

Students

Thank you students for your positive and constructive feedback we will strive hard to maintain the standards in years to come. Looking at some of the remarks we would like to inform you few things regarding some requests from your side.

1. Regarding syllabus we would like to inform you that since our college is affiliated to university of Mumbai we have to follow the syllabus set by university of Mumbai. There is no window available with the colleges to suggest any changes in the syllabus of any subject. So we cannot reduce the syllabus or modify it.
2. Regarding paper pattern we would like to inform you that since our college is affiliated to university of Mumbai we have to follow the paper pattern set by university of Mumbai. There is no window available with the colleges to suggest any changes in the paper pattern of any subject.
3. Regarding your request to start lectures from 8.00 am onwards we would like to inform you that 7.20 am is the perfect time to start the degree college lectures. If we delay the lectures we won't be able to vacate college for junior college students as junior college lectures start from 12.20 onwards. Apart from this M.Com lectures from 10.50 pm so even M.com student need classrooms.
4. Regarding study material we would like to inform you that in offline lectures all the teachers are providing notes and they have suggested reference books also.

Teachers

Thank you teachers for your feedback regarding syllabus

1. Many teachers have expressed the concern over reduction in syllabus. As the syllabus is devised by the university changes at our end are difficult. However the teachers can go beyond the syllabus and give an insight to the students about related topics. Teachers can within their limits try to adopt practical ICT tools, available in the college to give a practical touch. Teachers can arrange visits and guest lectures to give an additional exposure to the lectures. Wherever projects and assignments are a part of the subjects the students can be given topics which more relevant and which allows them to explore beyond the prescribed syllabus.
2. As regarding self-developments, students can be encouraged to read case studies, do role play and interact with each other on engaging in quiz contest, debates, elocutions to enhance self-confidence and communication skill.

LALA LAJPATRAI COLLEGE OF COMMERCE AND ECONOMICS: ACTION TAKEN REPORT FOR AY 21-22

3. Regarding including practical questions we would like to suggest that if teachers feel if a few sums will be useful then they can do so. As mentioned in earlier point teachers can definitely go beyond the limits of syllabus and can include a few new practical questions.
4. Regarding flow of concept we would like to inform you that teachers can devise their own flow charts which will improve learning experience of the students

Alumni

We thank all our alumni for their responses. The college feels proud of the students who have passed out and one doing well in their chosen field. Alumni have expressed their desire to help the college by being a guiding force and coaching students. That's an excellent idea. We have a number of our ex-students who visit the college and engage with students sharing their life experience.

1. All classes are now well equipped with smart boards, projectors and Wi-Fi. College has taken due care of hygiene and cleanliness to upgrade.
2. Alumni contribution in all forms is welcome.
3. The college feels proud of the students who have passed out and one doing well in their chosen field. Alumni have expressed their desire to help the college by being a guiding force and coaching students. That's an excellent idea. We have a number of our ex-students who visit the college and engage with students sharing their life experience. To make the courses more practical we will definitely like to invite alumni to guide and mentor the students.
4. For giving practical knowledge students are taken for industrial visits. A number of people from business and corporate sector are invited to give series of talks on various relevant areas which give the students on insight into the way the real corporate would work.
5. We have a very active placement cell and many companies do visit our college campus for recruitment.
6. We have very famous Fests in our college and college do support the students to conduct the fest smoothly.
7. To make the courses more practical we will definitely like to invite alumni to guide and mentor the students. All classes are now well equipped with smart boards, projectors and Wi-Fi. College has taken due care of hygiene and cleanliness to upgrade.
8. College encourage our teachers to participate in faculty development programs, webinars and seminar to upgrade and update their knowledge

Parents –

Thank you parents for your feedback

1. Regarding your request to start lectures from 8.00 am onwards we would like to inform you that 7.20 am is the perfect time to start the degree college lectures. If we delay the lectures we won't be able to vacate college for junior college students as junior college lectures start from 12.20 onwards. Apart from this M.Com lectures from 10.50 pm so even M.com student need classrooms.
2. Regarding paper pattern we would like to inform you that since our college is affiliated to university of Mumbai we have to follow the paper pattern set by university of Mumbai. There is no window available with the colleges to suggest any changes in the paper pattern of any subject
3. Thank you parents for extending you helping hand to college
4. We put all the important notices and important events on our college website. We are thinking about a dedicated software for students.
